Smoking and Vaping on Campus

Smoking is prohibited anywhere on Campus other than at designated locations identified within this document.

Vaping and E-Cigarettes are prohibited in all buildings including teaching buildings and halls of residence. Vaping is not permitted within **7.5 metres** of any **building entrance or window**. This equates to the distance from Eden Building entrance to where University property meets the pavement at Taggart Avenue.

Why are we restricting vaping on campus?

- We want to promote a healthy campus that is truly welcoming for everyone. Vape clouds around building entrances and entering through windows is really unpleasant and some people with respiratory issues and other medical conditions have told us about the negative impact this can have on them.
- The vapour produced from vapes can activate building fire alarms causing unnecessary evacuation, and the lithium batteries used to power vapes can become very hot and present a fire risk to our teaching buildings and halls of residence.
- Access to the University Policy for Smoking and Vaping can be found at [www.hope.ac.uk/media/gateway/staffgateway/governance/healthandsafetydocuments/Smoking and Vaping Policy.pdf](http://www.hope.ac.uk/media/gateway/staffgateway/governance/healthandsafetydocuments/Smoking%20and%20Vaping%20Policy.pdf)

Please support the University community to promote a healthy and welcoming campus and respect other building users by following these measures.

Designated Smoking Locations

Hope Park

Newman Hall

The smoking shelter can be found adjacent to the main entrance road and opposite Newman Hall.

i3 Building

The smoking shelter can be found adjacent to the main entrance road and to the side of the i3 Building.

Austin Hall
