Secondary Subject Knowledge Enhancement (SKE) Online Courses Information for Applicants

The School of Education at Liverpool Hope University offers free Subject Knowledge Enhancement (SKE) courses to anyone with a conditional place on a PGCE Secondary Course.

SKE courses are designed to help potential Initial Teacher Training (ITT) trainees gain the depth of subject knowledge needed to train to teach their chosen subject prior to, or alongside, undertaking a teacher training programme.

SKE courses are free for those eligible for funding (see 'Fees & Bursaries' section).

Who are the SKE courses for?

SKE courses are designed for students due to embark on their Initial Teacher Training (ITT) programme who need to strengthen their existing subject knowledge. They are particularly useful if your academic background omits aspects of your specialist subject at a level necessary for teaching it in secondary schools.

Subjects and course durations available at Liverpool Hope University:

Entry requirements

Pre-ITT: You must have accepted a conditional offer of an ITT place where the conditions indicate an SKE course must be completed.

Applicants who have a degree in their chosen ITT subject awarded in the previous 5 years are not eligible to access SKE programmes.

Fees and Bursaries

For eligible pre-ITT applicants, these courses are fully funded by the Department for Education. We deal with the funding request directly from your application information.

Our pre-ITT SKE course will be funded for applicants who have accepted a conditional offer of a place on an Initial Teacher Training programme and who also have the completion of an SKE course as a requirement of their conditional offer. Evidence of the requirement to complete an SKE by the appropriate ITT provider will need to be provided as part of the application process.

Training bursaries are available for those who meet the Department for Education criteria for an SKE bursary. All students who enrol on an SKE course will be assessed against the criteria to determine their eligibility.

If an SKE programme runs in parallel with a full-time ITT course and the participant is eligible to receive an ITT bursary, students will only receive the ITT bursary.
