

Mindfulness in the Classroom

Online CPD

Wednesday 8th June 2022, 6:00pm – 7:30pm

'Delivered Online by Katie Scott, Qualified Primary School Teacher, Yoga and Mindfulness teacher, Creator of 'Little Sunshine Mindfulness and Yoga'.

'Little Sunshine Mindfulness and Yoga aim to provide lifelong skills that transform the mind to a calmer state, working together to make a positive change.'

With 1/10 children diagnosed with a mental health issue we believe it's essential that teaching staff and students are provided with the techniques to support children's mental health in the school environment. We believe that all teaching staff should be taught these skills to support children's emotional development in the classroom. Mindfulness is when we focus on the present moment using our senses. Often our mind is on autopilot over thinking and worrying about the past or future however when we are consciously aware of our senses our monkey mind is distracted allowing our mind to become calmer. We provide fun and engaging mindful techniques using breathing strategies, meditation, massage, listening games, self-esteem activities and much more. The benefits of this include improved concentration, resilience, focus, self-esteem, determination, cognitive development and reduced stress and anxiety developing a more positive mind set. We also include mindfulness for adults to support staff well-being in the workplace developing a whole school mindfulness approach.
