Advice on how to complete the application Form

Please complete all the details, including your name, contact details, student number and qualifications. Applications with missing details will hold up the process.

Please attach the relevant supporting documents (e.g. copy of final degree certificate and academic reference). Applications without the relevant supporting documentation will hold up the process.

The application form asks you to 'please indicate why you think you should be considered for the scholarship and how you think this would benefit you in your programme of study'. This is the most important part of the application form and will be carefully judged by the University Committee.

To answer this question try to include details that cover all the criteria: academic achievement/results, involvement in activities at your previous university, community work and your contribution to society, charity/volunteer work you've done, and your future aspirations and how you will contribute to the social and economic development of your country. You should also include how you intend to become involved in university life at Liverpool Hope.

If you are awaiting your final results, you are still able to apply. Please state 'pending results' in the qualification section. You must submit your results when they are available.

Liverpool Hope University reserves the right to award a scholarship only after careful consideration of an applicant's qualifications and verification of authenticity.

Good luck with your application!
