Course theme: Liverpool & the Arts

This exciting, creative course invites students to explore ideas of the city and how we respond through the arts. Engaging with a range of arts practices - Visual Arts, Film, Music, Dance and Drama, students will participate in the vibrant, creative environment of Hope University's Creative Campus located near Liverpool City Centre. This Creative Campus has been formally recognised as a hub of Creative International Excellence.

Students will work with staff who are both practising artists and academics. The city will become a playground for creative expression. Artistic collaborations between students and art forms, and possibilities for solo projects, will accumulate in a performance/exhibition/showing of the work on the Creative Campus, which houses a professional theatre/gallery/art & dance studios. Collectively, we will create as many different ways of mapping the city as

possible experimenting with the richness of the Visual Arts, Film, Music, Dance and Drama.

This course is dependent on viable numbers.

Liverpool

Liverpool is a city like no other. From world-famous architecture and magnificent museums, to music legends revolutionising popular culture, Liverpool has always been a hub of creativity. Through spectacular festivals, dramatic sporting attractions and unique art, the city continues to be a gateway for UK culture, attracting millions of visitors every year.

Summer Study Abroad program

Designed to meet the needs of students majoring in a variety of subjects, the program will be based at Liverpool Hope University's Creative Campus. Students will undertake visits and have discussions concerning a city's architecture, cultural fabric, human activity, Beatles Quarter, urban/rural landscapes, galleries, museums, port cities, global and cultural influences, etc. Students will communicate their engagement with the city, through the endless possibilities the creative arts give us. The only prerequisite for the course is to be curious about a city and use the arts to communicate those thoughts while working with some of the best academics/artists in the UK.
